Because we care about
second chances.

The **AIRBNB** for
people in **Recovery**.

How we help

- **Free Housing:** Fully furnished homes with a supportive environment, including WiFi and food.
- **Secure access:** Structured, drug- and alcohol-free living with 24/7 accountability.
- **Access to Care:** Direct internal connection to medical services and medication management.
- **Recovery Support:** Access to intensive outpatient (IOP) and substance use disorder (SUD) service groups.
- **Life Skills Support:** Hands-on guidance in daily living to establish better community integration.
- **APPO Support:** Guidance and accountability for compliance with probation and parole requirements.

Mission

To provide free housing and recovery support for people facing addiction, mental illness, and homelessness.

Vision

To make New Mexico free of homelessness and addiction through housing, recovery, and community.

Apply

Free housing, safe, and supportive
for people rebuilding their lives.

Because recovery
deserves a home.

FREE HOUSING

Safe. Stable. Supportive.

At **Troopers**, we believe housing is the foundation of recovery and the first step toward rebuilding lives.

Without a safe roof overhead.

It's nearly impossible to focus on healing, growth, or future goals.

That's why we provide free, fully furnished homes where residents can feel secure, supported, and ready to take meaningful steps forward.

Therefore, by removing the burden of rent, bills, and daily survival stress, residents can put their energy into recovery and long-term stability.

What We Provide

- **Comfortable Living:** Fully furnished rooms with clean linens and shared common spaces designed to feel like home.
- **Meals & Essentials:** Stocked kitchens, shared meals, and basic hygiene supplies provided so no resident goes without the basics.
- **Connectivity:** Free WiFi and technology access to stay in touch with family, continue education, or prepare for employment.
- **All Utilities Covered:** Water, electricity, internet, and laundry included at no cost, everything needed for everyday life.

Secure Access

Our homes are more than shelter.

They are drug- and alcohol-free environments with 24/7 accountability and support.

Ensuring every resident has a safe and structured place to grow.

The combination of secure housing and consistent oversight creates a foundation where recovery can thrive.

Because accountability
creates freedom.

APPO Support

Accountability. Structure. Second Chances.

For many residents, recovery also means navigating probation or parole requirements, which can often feel overwhelming and difficult to manage alone.

At Troopers, we provide **APPO (Adult Probation & Parole Office)** support to ensure residents remain compliant, avoid unnecessary setbacks, and continue moving forward in their recovery journey.

We know that meeting these obligations is not just about following rules.

It's about building trust, creating stability, and opening doors to second chances.

What We Provide

- **Compliance Coaching:** Step-by-step guidance to help residents fully understand and meet APPO requirements with confidence.
- **Accountability Systems:** Curfews, staff check-ins, and structured routines to support responsibility and reduce the risk of violations.
- **Collaboration:** Consistent communication with probation and parole officers to verify progress and provide positive updates on residents' growth
- **Court Support:** Assistance with court appearances, paperwork, and documentation to ensure residents are prepared and represented accurately.

Why It Matters

APPO compliance is more than a box to check.

It's a pathway to freedom and independence.

Therefore, by meeting probation and parole expectations, residents show responsibility, build trust with the justice system, and strengthen their commitment to lasting recovery.

No one has to face these challenges alone.

Our team provides the guidance, accountability, and structure needed to successfully navigate APPO requirements and take meaningful steps toward a brighter future.

Because every goal
needs guidance.

Case Management

Accountability. Progress. Recovery.

At Troopers, we understand that recovery requires far more than simply achieving sobriety.

Lasting success depends on a foundation of safe housing, reliable accountability with probation and parole, consistent access to healthcare, and the development of practical life skills that support independence.

Without these supports, the risk of relapse, legal setbacks, or instability increases dramatically.

That is why case management is not treated as an optional add-on at Troopers. It is a mandatory service for every resident, built into the very structure of our program.

What We Provide

- **Individualized Planning:** Every resident is assigned a case manager who creates a tailored recovery plan with clear goals and timelines.
- **Housing, Employment & Education Support:** We help residents apply for housing, find jobs, and connect to GED or vocational programs to build independence
- **Healthcare Coordination:** Case managers ensure access to medical, psychiatric, and therapy services while supporting medication compliance.
- **Probation/Parole Accountability:** We maintain communication with APPO, monitor curfews, and provide documentation to keep residents in compliance.

Why It Matters

Case management is the bridge between goals and resources.

It gives residents the structure and accountability needed to stay compliant, access essential services, and build the life skills required for independence.

With consistent guidance and support, residents strengthen their recovery and move toward lasting stability and reintegration into the community.

Because health is the
foundation of hope.

Healthcare Services

Care You Can Count On.

At **Troopers**, we recognize that health is the foundation of lasting recovery.

Physical and mental well-being go hand in hand with stability, independence, and personal growth.

That's why we provide direct internal access to licensed medical, psychiatric, and therapeutic providers, ensuring that every resident receives consistent, effective, and compassionate care without unnecessary barriers.

Therefore, by integrating healthcare into our program, we make treatment easier to access and part of everyday life.

What We Provide

- **Psychiatry:** Comprehensive behavioral health support to address conditions such as depression, anxiety, PTSD, and other mental health needs.
- **Therapy:** Licensed therapy for recovery and mental health through individual and group sessions that build healing, resilience, and growth.
- **Primary Care (PCP):** Routine health checkups, preventive care, and other medical needs.
- **Nursing:** On-site nursing support to monitor overall health, coordinate medical care, and assist residents with their ongoing recovery needs, and medication management.

Why It Matters

Residents should never have to navigate healthcare on their own.

At Troopers, services are accessible, consistent, and integrated into each resident's recovery plan, reducing stress and removing obstacles to care.

With direct access to providers, residents gain peace of mind knowing their physical and mental health are being cared for in a supportive, recovery-focused environment.

This holistic approach helps build the stability and strength needed for long-term recovery and success.

**Because recovery grows
through community.**

Life & Recovery Support

Skills for Today. Hope for Tomorrow.

Recovery is more than just staying sober.

It's about building the confidence and independence needed to live a stable and fulfilling life.

At Troopers, we focus on equipping residents with the practical skills, structured routines, and recovery tools that prepare them not only for today but for the future.

Through hands-on guidance and supportive programming, residents gain the resources they need to succeed long after leaving our homes.

What We Provide

- **Life Skills:** Training in responsibility to build independence and confidence in daily living.
- **Recovery Groups:** Access to Intensive Outpatient (IOP) and Substance Use Disorder (SUD) programs that reinforce sobriety, accountability, and peer support.
- **Personal Growth:** Guidance in education, employment readiness, and community reintegration to create opportunities for long-term stability and success.
- **Daily Support:** Structured routines and consistent coaching to reduce stress, strengthen coping skills, and promote balance in everyday life.

Why It Matters

Recovery doesn't end with treatment.

It continues through the skills residents carry into their daily lives.

Therefore, by strengthening both recovery and life skills.

Troopers helps residents live independently, develop healthy habits, and reintegrate into society with confidence.

This support lays the groundwork for lasting recovery, stronger communities, and brighter futures.

Because consistency
creates change.

At **Troopers**, consistency is key to recovery; each day follows a structured schedule designed to promote stability, accountability, and personal growth; medication administration, group programming, and personal activities are balanced to support physical wellness, mental health, and steady progress in daily living.

This schedule ensures that every resident receives the right care at the right time, in a safe, supportive, and recovery-focused environment.

Program Schedule

Morning

- Medications administered as prescribed
- 8:00 AM – 11:00 AM: Life Skills Programming

Mid-Afternoon

- Medications administered as prescribed
